When duty whispers low, "thou must"
The youth replies, "I can."

Memory is a fragile thing—
A bee's honey and its sting!

—Newton

IN MEMORY OF . . .

our very devoted janitor, Barry Patterson. For four years he worked very hard to maintain cleanliness in our entire school. Everyone enjoyed his laughter and humor. This class will carry his memory forever.

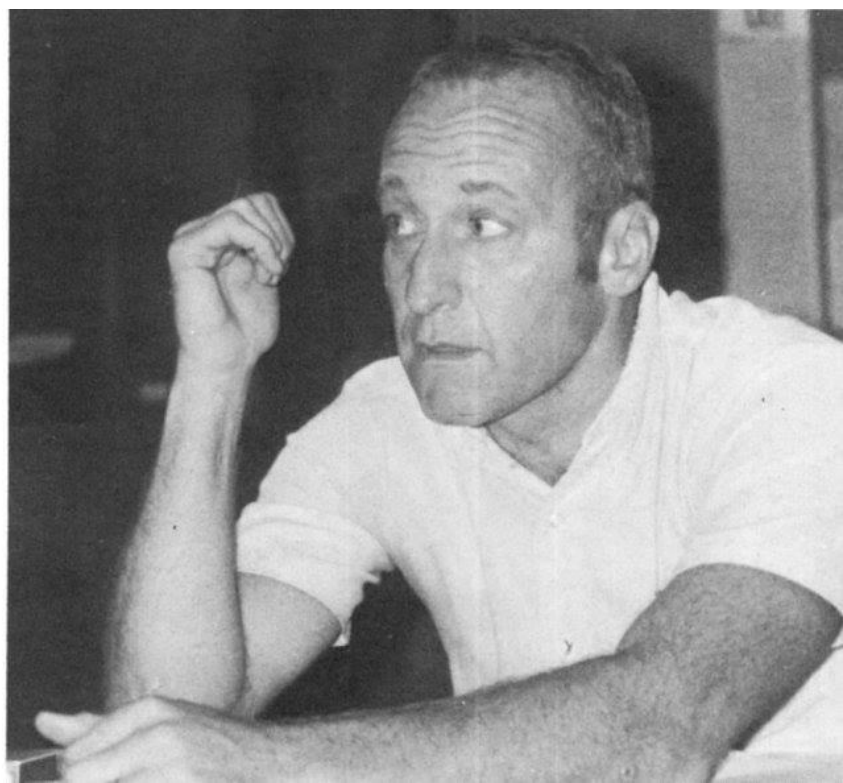

I extend my best wishes for the Class of 1972. You are headed toward a period where the need for improved performance by our young people is great. The subjects of war and peace, of national economy, of materials conservation, and of political expediency are becoming increasingly complicated. I am sure that our knowledgeable and well trained youth will prove to be very competent when facing these great challenges.

A. Harold Fenlason
Supt. of Schools

This would seem to be the year that students and faculty alike have pointed towards the establishment of a realistic educational process. We have removed some of the traditional hamstrings of education while retaining those human characteristics so necessary to living and learning together. It is hoped that our joint efforts have resulted in your acquiring the knowledge basic to self-improvement, but more important, that you have remembered the frustrations, humor, respect and friendships that have made up four years of being together. Don't treat these relationships lightly for you can draw upon them for a lifetime.

My best wishes for your every success.
